The Library has a LOT of resources but navigating them, especially when you're just starting, can be a challenge. That's where our librarians and subject specialists come in. They can show you how to research a paper, find credible sources, track your citations, learn the basics on a new subject and request any materials you need.

So the next time you're assigned an essay on the growth of the Mongolian economy or you're stuck while researching the history of food in literature or you don't even know where to start with your presentation on the tax code, come see us!

Don't want to get out of your pajamas? Our librarians—and other staff—are available via chat or email, too!

Look up your librarian today at library.georgetown.edu/librarians-by-subject.
Welcome to the SCS Library!
You’ll probably spend a lot of time using the Library during your time at Georgetown—accessing course reserves, browsing our e-resources and doing research. Read on to learn about all the ways the Library is here to help you!

Discover
- Use OneSearch to find Library books, articles, databases, journals, media and more
- Browse online subject and course guides created by our librarians
- Explore the University Archives, rare books, manuscripts and art collections in the Booth Family Center for Special Collections on the main campus
- Delve into one of the oldest and most notable Catholic theological libraries in the US in the Woodstock Theological Library on the lower level of Lauinger Library on the main campus
- Peruse our digital collections in DigitalGeorgetown anytime, from anywhere
- Access your class reserves in the Library or through the Library’s website in Blackboard

Connections
- Drop by the School of Continuing Studies Library or schedule a research consultation with your librarian to discuss research assignments, explore resources and learn search techniques

Create
- Produce and edit videos, photos and more with equipment from the Digital Media Center (DMC) in the SCS Library
- Use state-of-the-art multimedia software for photo and video editing, graphic design, and more in the Mac Lab, accessed via the DMC
