Games

DOORS OF SILENCE

Doors of Silence is a horror experience for Oculus Rift with some gameplay elements. Explore the mysterious place where you are, search and interact, hide in the shadows and find a way to escape.

Note: Graphic imagery and jump scares are used in this simulation. This game is not for the mild-hearted.

ARK: SURVIVAL EVOLVED

As a man or woman stranded naked, freezing & starving on a mysterious island, you must hunt, harvest, craft items, grow crops, & build shelters to survive. Use skill and cunning to kill or tame & ride the Dinosaurs & primeval creatures roaming the land, & team up with hundreds of players or play locally!

Note: This game relies on hosted servers around the world, it may not connect immediately. Gameplay will differ from server to server.

PROJECT CARS

Guided, tested, and approved by a passionate community of racing fans and real-life drivers, Project CARS represents the next-generation of racing simulation as the ultimate combination of fan desire and developer expertise.

Experiences

NEURO

GE Neuro is a portal into the human brain, allowing viewers to enter, view, and explore the mind in a brand new way. Debuting the world's first-ever animated VR neuro experience, GE is bringing viewers into the imagination and brain of accomplished photographer and DJ Reuben Wu, for a journey through Reuben's neurological responses to his thoughts, ideas, fears and memories. Developed in partnership with Kite & Lightning, "Neuro" gives a peek into how scientists are breaking new ground to understand how the brain works through advanced imaging technology.

Note: This game may cause mild motion sickness.

TITANS OF SPACE

This is a short guided tour of our planets and a few stars, giving the player a sense of scale of just how big these planets and stars are compared to each other.

Note: This game may cause mild motion sickness.
